The Telegraph.

See important news in telegraph column as to supposed loss at sea of a vessel from Australia, with four hundred passengers; and as to outrages at Brownville, Texas.

The Democratic National Convention. Our Information leads us to the conclusion that the Nominating Convention of the Democratic party, for President and Vice President, will be arranged to be held at Charleston, South Carolina, on the 30th of April, 1860. The committee will decide on the 7th of next month, at Washington City.

Personal Influence.

Teachers should be mindful of the unexampled opportunities in their power, by conversation-by a word spoken in season-to win the youth entrusted to them to the better way. More good and evil, it has been said, has been accomplished in this world by the simple process of talking, than in any other way. Dr. CHALMERS declared, that "No lectures or addresses have half the force of these personal communications."

Help Your Brethren in Distress.

We appeal to American laborers, to journeymen mechanics, to give a mite of their earnings to a fand to be forwarded to the London builders on a strike, who have appealed to the public for aid in supporting their families. Excessive mortality prevails among the unemployed operatives; many of whom, the latest news announce, will perish from want and disease. Right or wrong, these people should not be allowed to starve. Let our Cincinnati trades union or societies, avail themselves of the Schiller festival holiday to inaugurate a movement of aid to their less favored brethren in distress. Humanity calls!

"Turn-outs" in the City Council. Sixteen votes, out of thirty, were obtained in the City Council last night in favor of permitting the Cincinnati Street Railroad Committing the Cincinnati Street Railroad Com-pany to lay down turn-outs, if consent could be obtained of property holders, on each side opportunity to make good his escape. he obtained of property holders, on each side of the street to be occupied. The President decided that eighteen, a majority of the all the members, was necessary to carry the resolution. An appeal was taken, but the President's ruling was sustained, as a matter of good policy, the City Solicitor having given his verbal opinion that the resolution was legally adopted. Further action will be necessary before the people of the West End can ride in both directions on the Ninth-street route.

Brown's Way not the Right Way. The good WASHINGTON'S plan of abolishing slavery is thus expressed in his own words:

"There is not a man living who wishes more sincerely than I do to see a plan adopted for the abolition of it; but there is only one proper and effectual mode by which it can be accomplished, and that is, by legislative authority. This, as far as my suffrage goes, shall never be wanting."

While the occasion offers a lesson of instruction to the intemperately excited Southern people, both as to the patriotism of the North and the whole subject of emancipation, it admonishes the advocates of free labor not to war with the sword, but with argument and kindness.

Carrying the War into Africa.

The Straits of Gibraltar, thirty-three miles The Straits of Gibraltar, thirty-three miles his person and rifled his pockets of everything long and eight miles wide, joins the Atlantic valuable, and divided the spoils. Ocean and the Mediterranean Sea, and divides Spain and Moroeco. The Emperor of Moroeco has committed some inhuman cruelties and threatened to tan the hide of the Spanish she lion as white and soft as silk. The fast Queen by General O'Donnell, formerly of Cuba, desires to carry the war into Africa, and bombard Tangiers, as the French did in 1844. and kick the blacks and Bedouins about in the streets of Tetuan until satisfaction is obtained for insults and injuries. France is ready to give her aid, as French soldiers have been burnt slive by the Moors. If France takes Morocco to annex it to Algeria, England will growl, perhaps fight. England fears that she will be disturbed again at Gibraltar, as France and Spain made a formidable attack upon it in 1782, but failed.

The Chronic Complaint of Dirty Streets. Our weekly expense for removing street dirt-removed or not removed-is \$432, (but little over \$60 a day-or \$20 per day in each District,) viz: Esstern District \$138; Western District \$144; Northern District \$150. Is the work satisfactorily done? Is the contract plan the best? The City Commissioners, by signing the bills weekly, say yea, to the first question; and, Council has said practically, that the present plan is the best, by ordering the contracts.

A suggestion has been made of this kind. Let Council give a certain price per tun for street dirt, loads to be weighed on a scale at certain dumps. Pay for what it gots-let any one enter upon the streets, and scrape and carry by the basket full if need be-a penny's worth at a time-cash down and no grumbling. This is an original idea, beating all cog-wheel sweeping-machines. But seriously something is defective in the present plan; but contractors are not deserving the curses and kicks given them. They undertake more than they can do, and do all that they can, under the circumstances, be expected to do, not being able to save a large margin out of their appropriation. What is \$20 a day to clean the entire streets of one-third of this great city, as grumblers want it done. If people want to have work well done and not niggardly done, they must not pay niggardly prices.

PECULIAR AND DIBTRESSING SUIGIDE IN WASHINGTON.—Lewis Jones, a young man, aged about twenty-one, and a clerk in the General Land Office, son of the late George H. Jones, Assistant Secretary to the President, to sign land patents, blew out his brains in Washington last week. He had been somewhat dissipated and much absent from home, and on the morning of his death his mother took him aside and besought him kindly to be better in future; to leave those companions who detained him from his home, and to live more with his parent and sisters, at the same time throwing her arms around his seek and kissing him. He sppeared to heed her for a moment, but withdrew from her arms, and then suddenly drawing a pistol, remarked: "I have lived long enough, I can't stand this;" or, "Mother, see what I am going to do," and, presenting the pistol to his forchead, fired. The ball entered about the center of his forchead, and he sunk almost lifelees into his agonized parent's arms. PROULIAR AND DISTRESSING SUICIDE IN WASH-

BY LAST NIGHT'S MAIL.

Overland California Mail-Indian Depredations—Discovery of New Silver Mines—Homicides, &c.

The telegraph of this morning furnishes an abstract of the news by the overland mail, bringing dates from San Francisco to the 14th, but the newspaper advices received last night contain some interesting news not mentioned by the telegraph, which we annex:

PRESONAL .- Christopher Garvey, formerly of St. Louis, and a well-known notary public and real estate agent in San Francisco, was found drowned near Oakland, on the 10th of October. He leaves a family in San Francisco. It is supposed he was socidentally drowned. Bayard Taylor was announced to deliver two more lectures in San Francisco, before leaving for the States on the steamer of the 20th ult.

A DEPAULTER ABSCONDING FROM PLACER-VILLE -Dr. Chamberlin, a resident physician of Piacerville since 1850, and who up to a few days ago was said to bear an unbiemished character, absconded from that place on Sun-day evening, 9th of October, having "victim-ized" his friends, says the Observer of that place, to an amount supposed to be between

HOMICIDE AT THE MINES .- On Tuesday difficulty arose between two men at the San Gabriel mines, which resulted in the death of one of them named John Hartley. It ap-pears that deceased had conceived an ill-feeling for Mr. John Welsh, a store-keeper there, who was passing, when Hartley drew a pistol and fired at him, bursting the cap. Hartley afterward made other attempts upon Welsh, who finally killed the follow in self-

IMPORTANT DISCOVERY .- On the La Llevra Rancho, about one hundred miles from this near Fort Tejon, indications were city, near Fort Tejon, indications were noticed, which led the prospector, a Sonorian, to conclude that silver ore abounded in that locality. He came to town and communicated with some of the capitalists of the city, who sent out men to operate on the place. The result is the discovery of what gives evidence of being a very rich and valuable silver mine. A quantity of the ore was brought to town and tested, by precipitation, smelting and other modes, exhibiting a large per centage of metal

INDIAN DEPREDATIONS .- On the 24th of Sep. tember the conductor and driver of the Santa Fe train were killed by the Indians at Pawnee Fork. One gentleman—a passenger—alighted from the coach and shot at one of them, wound-ing and causing him to fall. Several of his comrades gathered around him to minister to

Seven or eight passengers, who started from Santa Fe by the Northern route, had got as far as Pawnee Fork, but were compelled to return and strike across the country for El Paso, to take the California overland stages. They met with so many unfriendly manifesta-tions from the Indians that they had abandoned the idea of coming northward, and were about to proceed via San Antonia to New

On the 15th of September, about forty miles east of the Pachos, on the Overland route, the Indians killed two young men employed at building a station for the Overland Company. These marauders are encamped in large numbers on the east of this river, and seem deter-

mined to steal and kill all they can. Almost all the stock had been stolen from the various stations, and our informant states that the route will be impassible in a very short time unless the services of troops or rangers are procured. The roads are in tol-crably good condition, but the northern winds, which blew very hard, rendered the trip unpleasant. The drivers and conductors of the Overland route had intimated their intention to quit the service, fearing lest they lose their lives at the hands of the Indian

A MEXICAN BRUTALLY MURDERED IN ARI-ZONA.—Two desperadoes, Page and Rogers, killed a Mexican in Arizona, near Tubac. After having shot nine balls into him, they, fiend-like, proceeded to mutilate him, in his his helpless condition, by cutting off his ears close to his head, and bore them off to Tubec as a trophy of their deed. They then stripped

Rumored Loss of the Steamer Royal Charter, with Four Hundred Lives on Board.

MONTREAL, November 7 .- The Liverpool MONTREAL, November 7.—The Liverpool
Post of the 27th ult, gives a rumor of the loss
of the steamer Royal Charter on the previous
day, with four hundred persons and helf a
million in specie on board, from Australia.
The following important item of news is
taken from the Liverpool Daily Post of the
27th October, a copy of which was obtained
by the steamer North American:
The public will learn with overwhalming

The public will learn with overwhelming grief that the splendid vessel, the Royal Char-ter, was totally lost yesterday in Muffa Red Bay, near Bangor. The melancholy intelli-gence which reached us late last night was gence which reached us late last night was brief, but, we fear, is only too true. Of up-ward of four hundred persons who were on board the vessel, only ten are said to have been asfe. There is some hope, however, that the statement is exaggerated, but under the circumstances the loss of life it is to be feared has been immense. The Royal Charter had about half a million in gold on board

when the disaster took place.

At Penmoname 20 of the bodies of the dead had been washed ashore. The bay in which the catastrophe occurred is two or three miles westward of Ruffin Island, in Angle Sea, and six or seven miles to the porth west of Sastronia. It has a shall be north-west of Beatmaris. It has a shallow beach for several miles, with promontories at the east end of the bay. The country around is wild, and there are but few houses about.

Highly Important News from Texas. New Oblians, November 7.—The steam-ship Arizona has arrived, with Brownsville advices to the 2d inst. Cortenas's band continue their depredations,

Cortense's band continue their depredations, and threatening with fire and sword. On the 20th, thirty men entered the city and fired one round, when they were dispersed by the artillery and fied. On the 24th, one hundred and twenty men, with cannon and howitzer, marched against Cortenss, drove the guard from his house, and proceeded. They were finally surprised by an ambuscade, and entirely defeated, with the loss of cannon and howitzer. Four men were wounded but howitzer. Four men were wounded, but none killed. Cortenas's loss was two men

Cortenas afterward sent a letter, demanding of the citizens of Brownsville the surren-der of the Sheriff and others, to save the de-

struction of the town.

There is a general panic at Brownsville.
The city is barricaded and trenches have been dug in anticipation of another attack which was hourly expected. It was reported that after taking Brownsville, Cortenas attack Brazos.

The Mayor of Brownsville appeals to New Orleans for one hundred men, as the citizens were worn out and the Rangers had not yet

Advices from Northern Mexico state that sixty felons had been released from the prison at Victoria, and had joined a Guerilla band who were devastating the country. New York Bank Statement.

New York, November 7.—The bank statement for week ending Saturday shows an increase of loans \$1,703,000; increase of circulation \$351,000; increase of deposits \$590,000; a decrease of specie \$1,020,000.

Departure of Mr. McLean. New York, November 7.—The U.S. steamer Brooklyn sailed this afternoon, with Minister McLean on board, for Vera Cruze From Washington.

Washington, November 7.—Captain Lavellette, in a letter to the Secretary of the Navy, dated Naples, October 14, says he had taken American Consul Nicholson to Tunis in taken American Consul Nicholson to Tunis in the Wabash. It was customary to salute the English and French Consuls whenever they arrived or departed, but no other such officers were similarly honored; but as our treaty with Tunis placed our Consuls on a footing with the most favored nations, and this fact having been explained, the suthorities cheerfully accorded a salute to both Captain Lavellette and Consul Nicholson. The carriages of the Boy were in waiting at the landing, where our officers were received by persons of the highest rank, and escorted to the palace. The interview was very satisfactory; the Bey saying he should endeavor to cultivate the most friendly relations with the United States.

Lavellette adds: "I clearly discovered that Lavellette adds: "I clearly discovered that our presence was having a beneficial effect on the new government, and especially with refer-ence to the position of our Consul, I am satis-fied the short trip to Tunis will conduce to the best interests of the United States.

Senator Gwin will, at the earliest period at the next session of Congress, bring forward the Pacific Railroad question with more than

The San Juan Affair. NEW YORK, November 7. - The Herold's Washington correspondent says that though diplomatic rules, and perhaps prudential con-siderations, prevent the State Department from disclosing the exact state of affairs to the public, yet it is believed that serious difficul-ties may and probably will grow out of the dispute between the United States and Eng-land, in reference to the Island of San Juan, or Bellevue, in the Straits of San Juan DeFuca. It is generally conceded that General Harney was entirely right in taking possession of the Island for protection of United States citizens there, and for the maintainance of the rights of the country to the Island, under the Packenham Treaty of June 15, 1846. The President will submit the correspondence to Congress at the opening of the session, and will ask for means and men to enable him to

defend the rights of our country, and uphold the honor of its flag at all hazards and to the last extremity. The same correspondent also considers the return of Mr. Dallas before the hollidays, or early in the session of Congress, as possible.

Arrival of the Vanderbilt. New York, November 7.—The Vanderbilt has arrived at her dock. She left Southampton berly on the morning of the 27th ult., and brings nearly four hundred passengers, inclu-ding Senator Clingman; Carroll Spence, U. S. Minister to Constantinople; Judge Davis, of Florids, and the family of the Brazilian Min-

ister at Washington.

Bombay advices to Sept. 27 had been received at London by the overland mail. It was reported that Nena Sahib was dying of

The ship Waban, of Boston, had been struck by lightning at Bombay.

Sr. Louis, November 7—P. M.—River stationery, with scant five and a-half feet in the channel. Nothing new from any of the upper streams. Weather warm and pleasant.

Pittsburg, November 7—M.—River twenty-five inches at Glass-house Ripple and falling very slowly. Weather clear and mild.

LOUISVILLS, November 7—P. M.—River falling slowly, with two feet nine inches in the canal.

PITTEBURG, November 7-P. M.—The river and weather is unchanged since noon. From Richmond.

RICHMOND, November 7 .- It is ascertained that under the laws of Virginia the Governor can not pardon a person convicted of treason to the Commonwealth, except with the consent of the General Assembly by joint resolution. This rids Wise of all responsibility in the matter. What the Legislature will do

Railroad Accident.

BELVIDERE, November 7.—The passenger train on the Belvidere and Flemington Rail road, which left here at six o'clock this morning for Philadelphia, was thrown off the track by running into a rock, thirteen miles below The engine is a perfect wreck and the track is torn up for several yards. No person

New Orleans Election.

NEW ORLEANS, November 7 .- The election passed off perfectly quiet. In the Fourth Dis-trict the Democrats elected one member to the Legislature, one Justice and one State Tax Collector. The rest of the city was carried by the regular American ticket, which is elected by a large majority.

Slavers Condemned.

Boston, November 7.—Advices from St. Helana to September 19, received here, state that two slavers, captured on the coast of Africa, had been condemned there. One was the Stephen T. Townsend, of New Orleans. The other was unknown.

A MAN KILLED BY KINDNESS .- The death of John Burton, of New Rochelle, N. Y., while drunk, on Friday last, was caused by the mistaken kindness of one of his friends, who poured cold water upon his head, to render him sober, until a comatore condition was produced, from which he could not be

MARRIED.

MARRIED.
